

## **New Day Healthcare Expands Skilled Care Capabilities With Texas Acquisition**

**Oct. 17, 2023, McKinney, Texas** — New Day Healthcare, a rapidly growing home health care provider, has completed its latest acquisition with the closing of Pathfinder Home Health, a skilled care provider in Texas. This acquisition is the eighth completed by New Day Health Care since its inception in 2020.

Founded in 1997, by the Wilcox family, Pathfinder Home Health, has locations in The Woodlands, Beaumont, and Athens, Texas. The organization has consistently delivered high-quality care and exceptional patient satisfaction results.

“The acquisition of Pathfinder Home Health fits perfectly with New Day’s expansion plans in East Texas,” said Kathy Poland, Chief Operating Officer of New Day Healthcare. “One of our major Purpose Statement beliefs, is acquiring organizations for who they are and letting health care be provided locally, by local care givers. We maintain local operations and let these companies run, so they remain patient focused. Our ability to maintain local brands and local operations sets us apart.”

New Day Healthcare has been concentrating on expanding its service offerings in East Texas, where it has a significant presence and provides skilled care, personal care and hospice services. The acquisition of Pathfinder Home Health will augment the company’s continuum of care in the area.

“Pathfinder is an example of high caliber companies that we seek to add to the New Day family. Keeping the existing operational structure in place and enhancing benefits for team members is a key success factor for New Day,” said Matthew Griffith, Chief Development Officer of New Day Healthcare. “Additionally, Pathfinder operational leader Danny Golden, a home healthcare veteran, will remain in charge of delivering the company's exceptionally high quality care.”

With this closing New Day expands its continuum-based footprint to 24 locations across Texas, Missouri, Kansas and Illinois. Serving nearly 82,000 patients annually, the company employs approximately 6,500 team members in home health, hospice, pediatrics, clinical decision support, and personal care.

**[About New Day Healthcare](#)**

New Day Healthcare LLC was founded in 2020 by former home care and hospice leaders with a history of building patient-centered companies and cultures based in value and innovation. New Day believes that treating all patients with honor and kindness is a key for a successful home care business, and exceptional care leads to exceptional financial results. New Day Healthcare operates in Illinois, Kansas, Missouri, and Texas, through several home care companies.
